Alice and Eugenia,

Attached is a memo and table (1 file) describing the major of assumptions of the EMBM. The table is fairly lengthy and should still be considered draft at this point. The information should serve as a good jumping off point following my presentation on Tuesday.

Alice, I took the liberty of circulating this to everyone on Eugenia's previous email, save Ray Basso. I didn't know if he'd really want all this detail. I'll leave that judgment up to you. See you Tuesday.

Ed
